

# Certificate II in Warehousing Operations

TLI21616

START YOUR CAREER IN TRANSPORT, LOGISTICS AND WAREHOUSING

This qualification starts you off with the essential knowledge and skills to work in a warehouse environment. Legal obligations under Workplace Health and Safety laws, Chain of Responsibility and Fatigue Management laws are addressed in a practical way. In addition, our subjects cover options like: picking and despatching goods; receiving and replenishing stock; and also working in a baggage handling or mail handling role. Critical communication skills are also covered to ensure that you can work effectively with colleagues and internal customers.

## Skills for a Career in Warehousing

Having warehousing skills can open many new job opportunities. It is a growth area and roles are likely to be always available to those with an interest in the field and background experience as shown through this qualification.
