** Subject to eligibility and availability at the time of enrolment

Entry Requirements

This Course Has Been Replaced - Transition Rules

This qualification has been replaced by FNS51820 Diploma of Financial Services. It is recommended that you enrol in that qualification unless there is a specific reason where we agree that this qualification is more suited to your circumstances.

ACCM College is in the process of offering that qualification. If you wish to enrol immediately you can enrol in this qualification and we will transition you to the newer one as soon as we can and at no cost.

The “transition date” for this qualification is **29 June 2021**.

This means that you must have been assessed as competent in all required units/subjects by this date.

If you do not finish by this date your enrolment must be closed and a Statement of Attainment issued for any completed units.

ACCM College does not have any discretion on this rule.

Existing students in this qualification may have the option to transition to the newer qualification.

The ACCM Transition Policy outlines this process and the considerations taken in determining if this is the best outcome for each student and if any fees apply. Go to the Policy page for details.

Reading and Writing Skills

The course is an online correspondence course so you need to have average English reading and writing skills, or higher. As a guide - you should have completed Year 12 schooling, or have sound workplace written communication skills.

Spoken English Skills

Some components of this course have practical components where students will be required to demonstrate verbal communication skills as part of their assessments. Average English skills are necessary to complete these components successfully.

Numeracy Skills

Numeracy skills are required at an average level eg completion of Year 10 maths and the ability to use a calculator.

Past Work Experience

For this qualification you should have completed the Certificate IV or have relevant work experience.

Computer and Internet

- Access to a Desktop Computer or Laptop
- Internet access with Internet Explorer 8+, Chrome or Firefox

- Microsoft Office 2010 Word and Subject specific Office products for chosen electives (ie Excel, Powerpoint, Publisher)

Subject Descriptions

Core Subjects:

Manage Team Performance and Communication

This hands on subject covers strategies required to present and negotiate persuasively, lead and participate in meetings and make presentations required to manage the performance of staff who report directly to you. Understanding and developing key result areas, key performance indicators and standards, coupled with regular and timely coaching and feedback, is the basis for performance management.

Unit(s):

BSBLDR513 - Communicate with influence

BSBMGT502 - Manage people performance

Professional Conduct in Finance

To build a successful career in the financial services industry you need a range of skills and knowledge . This subject covers skills to work effectively in a team, manage your time, apply specific legislation that affects your role, to identifying how your organisation can be more sustainable. You will develop your own professional development plan to ensure that you continue to progress in your chosen field in financial services.

Unit(s):

FNSINC401 - Apply principles of professional practice to work in the financial services industry

Elective Subjects: 5 - 9 Electives are required (depending on subjects chosen)

Comply with FS Legislation

This subject covers the key areas of legislation that apply to different occupations, the development , implementation and monitoring of a compliance system and the Training Strategies to keep people up to date with compliance issues and changes.

Unit(s):

FNSFMK505 - Comply with financial services regulation and industry codes of practice

FNSORG401 - Conduct individual work within a compliance framework

Risk Management Strategies

Risk Management Strategies covers risk context and risk identification, as well as risk management processes. The subject looks into the analysis of a risk, its causes, and ways to consider risk tolerance. Strategies for controlling and treating risks, as well as reviewing and monitoring those risks, are considered.

Unit(s):

FNSRSK401 - Implement risk management strategies

FNSRSK501 - Undertake risk identification

FNSRSK502 - Assess risks

Client and Third Party Relationships

This subject covers the skills and knowledge required to communicate and network with a wide range of people, internal and external to the organisation, to increase efficiency, build continuing relationships and improve sales. It has a focus on relationship building and prospecting for business referrals.

Unit(s):

FNSCUS501 - Develop and nurture relationships with clients, other professionals and third party referrers

BSBREL402 - Build client relationships and business networks

BSBCUS402 - Address customer needs

Personal Insolvency

This subject begins with an Introduction to the key terms used in the Personal Bankruptcy and Insolvency process. It covers the laws and codes of practice that apply to Personal Insolvency and the role of the regulator. Important in this subject is the creditor practices and strategies to support debtors in difficulty, prior to commencing the Bankruptcy process. This subject requires practical skills to complete personal insolvency forms and strong skills in dealing with debtors in difficulty that involves a one on one role play with a college trainer.

Unit(s):

FNSCRD501 - Respond to personal insolvency situations

FNSCRD504 - Manage the credit relationship

Corporate Insolvency

This Diploma subject covers corporate insolvency and the legal position of directors, it includes the types of external administration and the liquidation process. It examines the key roles in the process and the factors that impact on corporate insolvency including the calculation of creditor dividends. Sample documents and Statutory Forms are also covered in this subject.

Unit(s):

FNSCRD505 - Respond to corporate insolvency situations

Policy Development

This subject covers the role of policy and procedure within an organisation as part of the improvement process. The subject reviews the triggers for Policy Review, the planning process, and the implementation steps. It also reviews clear standards to assist in the effective communication of Policies and Procedures and the importance of the monitoring process.

Unit(s):

FNSORG502 - Develop and monitor policy and procedures

Advanced Selling of Financial Products

Strict rules apply to the sale of financial products. This subject looks at how to be effective with sales but also to be compliant and ethical. The subject covers advanced level questioning and probing skills; addressing customer objections; and taking steps to close the sale. As interpersonal and presentation skills are an important aspect of sales - a component of the assessment is undertaken via a Role Play on Skype.

Unit(s):

FNSSAM403 - Prospect for new clients

FNSSAM501 - Apply advanced selling techniques to selling of financial products and services

Manage a Sales Team

This subject covers developing sales plans, sales budgets and KPIs. A key component is the critical thinking and analysis involved in assessing customer needs. Sales management techniques and promotional activities are topics examined to ensure that you can successfully lead the sales team.

Unit(s):

BSBSLS502 - Lead and manage a sales team

FNSSAM502 - Assess market needs

Financial Budgets

The budgeting process is covered in depth in this diploma level subject. You will get the opportunity to develop your forecasting skills as you prepare sales, cash and operating budgets. You will also learn how to produce budgeted financial statements which are useful for estimating the financial results, financial position and cash flows of a business.

Unit(s):

FNSACC513 - Manage budgets and forecasts

Internal Controls

Internal controls are a very important function of any business. They are an essential means of safeguarding a business's assets and resources. You will learn about specific controls that should be introduced into every accounting system as well as fraud and fraud detection and auditing and corporate governance.

Unit(s):

FNSACC516 - Implement and maintain internal control procedures

AML and Banking Deposit Products

Understand the range of differences between different transaction, savings and investment products and be able to compare products and recommend the most suitable one to meet specific customer needs. In addition learn and apply the rules under Anti-money Laundering and Counter Terrorism legislation such as significant and suspect cash transactions.

Unit(s):

FNSINC402 - Develop and maintain in-depth knowledge of products and services used by an organisation or sector

BSBPRO401 - Develop product knowledge

Prioritising Strategies

This subject provides time management strategies and planning techniques suited for setting personal and team goals and targets. The importance of goals being linked to key performance indicators of the business is examined.

Unit(s):

BSBWOR501 - Manage personal work priorities and professional development

Quality Planning Strategies

This diploma level task goes beyond theory and asks learners to apply the principles of operational planning and continuous improvement in a realistic workplace scenario. Learners will carefully analyse business results to build an improved operational plan that takes into account the key elements consultation and communication, goal setting, monitoring, training, recruitment, resource procurement and embedding continuous improvement opportunities.

Unit(s):

BSBCUS501 - Manage quality customer service

BSBMGT516 - Facilitate continuous improvement

BSBMGT517 - Manage operational plan

Service Guarantees

Quality Training Provider

ACCM has a history of satisfied students and clients and repeat business. Our testimonials on our website are genuine and the type of feedback we receive daily. We are so confident that you will be pleased with the College service, that we guarantee it.

Speedy Paper-less Enrolment

Enrolment Applications are accepted 24/7 online. Be fully enrolled in your course in 7 minutes! For customised or employment based courses and traineeships contact us and we will send you a customised enrolment page by email.

Start Anytime - Immediate Enrolment

Within 30 minutes of applying to enrol, your personal log-on details are emailed to you. This gives you access to our on-line system Webclass. Login to Webclass and complete the administrative items. Once you have completed these items a College Student Adviser will phone you to discuss your needs, course requirements, suitability and electives. You will then have access to the first study module via WebClass.

Industry Expert Student Adviser

You will be allocated your own industry experienced Student Adviser. While they will personally manage your program; you will also benefit from the College team around them to provide expert assistance in all subject areas.

Prompt Results and Feedback

All assessments are promptly returned (via Webclass) with detailed feedback and encouragement. Our goal is to have them back to you in a week or less. In the meantime you can progress to your next subject.

Personal Contact for the Right Start

Your College Student Adviser will phone you to welcome you to the course and ensure that you understand the best way to make progress in your course. They will also assist you with any questions you may have.

They will be in regular contact with you, especially at the start of your course, to offer motivation, support and guidance.

For employment based enrolments they will also make contact with your work supervisors to address any questions they may have.

Pro-active Learner Support

The support won't stop! Contact from your College Student Adviser will continue every month, based on the level of help you need.

Of course, at any time you can call us to get help. Get immediate assistance over the phone and by email. If immediate assistance is unavailable for any reason, we will make sure a qualified Student Adviser is in contact with you no later than the next business day.

Quality Course Materials

Our step by step course materials have been written by industry experts specifically for the College. They will give you all of the relevant learner information you need to succeed in your course.

The resources simplify industry jargon and concepts, give you industry insight and understanding, and focus on current real world business practices.

Employer Progress Updates

For employment based enrolments all supervisors will have access to an online progress report showing the current status of all learners. We understand that it's essential to keep you up to date so we will prompt you each month to access your report.
