Entry Requirements

Reading and Writing Skills
The course is an online correspondence course so you need to have basic English reading and writing skills, or higher. As a guide - you should have completed Year 10 schooling, or have proven workplace written communication skills.

Spoken English Skills
To ensure successful completion of this course you must have sufficient English speaking skills to be able to communicate with your Student Adviser over the phone.

Computer and Internet
- Access to a Desktop Computer or Laptop
- Internet access with Internet Explorer 8+, Chrome or Firefox
- Microsoft Office 2010 Word and Subject specific Office products for chosen electives (i.e Excel, Powerpoint, Publisher)

Other
- Ability to study and conduct assessments in a safe environment
Core Subjects:

**Work Roles and Priorities**
Being able to organise personal work priorities is an essential job skill. Learn how to set and meet work priorities through time management and planning your work schedule. Skills to identify potential problems and prevent stress in the workplace are also covered. Also learn the importance of professional development activities.

Unit(s):
- BSBWOR301 - Organise personal work priorities and development
- BSBWRK311 - Develop self-awareness
- BSBIND201 - Work effectively in a business environment

**Critical Service Skills**
Customer service is a key function in all job roles. This subject provides information and knowledge on identifying the customers needs and delivering good customer service. As well as covering practical service skills there is specific emphasis on customers with special needs, working in a culturally diverse workplace and effective complaint handling skills. In this subject you will also learn about typical procedures that businesses want applied to any complaints received, and how to best adapt your communication to the specific needs of the customer. An alternative assessment is available that specifically addresses internal customer service roles.

Unit(s):
- BSBDIV301 - Work effectively with diversity
- BSBCUS301 - Deliver and monitor a service to customers
- BSBCMM301 - Process customer complaints

**Contribute to WHS**
Work Health & Safety policies, procedures and compliance are the focus of this safety subject. The subject looks at identifying key safety practices in a workplace. It covers workplace evacuations as well as identifying relevant safety training and procedures that may be required. It covers a foundation in the legal obligations and is a good solid base for understanding safety responsibilities. It involves a range of workplace activities like a safety inspection.

Unit(s):
- BSBWHS302 - Apply knowledge of WHS legislation in the workplace
Elective Subjects: 3-5 Electives are required (depending on subjects chosen)

**Business Writing Basics**
Learn to develop a good writing style for creating standard business documents such as basic letters, invoices, memos, messages and emails. You will also get tips on reviewing, proofreading and editing documents, as well as how to safely save and store them. Practical activities ensure that you have the necessary skills to organise information, communicate with work colleagues and write clearly.

Unit(s):
- BSBWRT301 - Write simple documents
- BSBADM302 - Produce texts from notes

**Word Processing - An Introduction**
In this introduction to word processing you will learn and develop key word processing skills that will allow you to create, style and prepare business documents. You will develop the experience to move and add text and using formatting techniques through practical activities. You will use Microsoft Word to prepare required documents using specific word processing features.

Unit(s):
- BSBITU313 - Design and produce digital text documents
- BSBITU306 - Design and produce business documents

**PowerPoint Presentations**
PowerPoint is a powerful tool to prepare easy to read presentations. This subject covers the importance of being clear about the purpose of your presentations and looks at what you will need to do to prepare and plan your PowerPoint Presentation. Learn how to add content to your Presentation including hyperlinks, clip art, sounds and videos.

Unit(s):
- BSBITU312 - Create electronic presentations

**Digital Communication & Appointments**
This subject looks at the business use of email and other online technologies to communicate. It looks at the different features and functions of digital appointment scheduling applications, such as creating emails and creating meeting requests; as well as the process to determine when work colleagues are available for appointments.

Unit(s):
- BSBADM307 - Organise schedules

**Keyboarding and Business Technology**
Keyboarding and Business Technology focuses on developing touch typing skills, and also using keyboard functions and short cuts. Important proofreading tips as well as safe computer work practices are addressed. Students are allowed to practice online with this subject so that they can achieve 30 words per minute at an accuracy of 98%.

Unit(s):
- BSBITU307 - Develop keyboarding speed and accuracy
- BSBWOR204 - Use business technology
Purchase Business Resources

Significant cost savings can be made by managing the purchasing process. This subject looks at ways to cost equipment replacement, consumables and maintenance, and how to follow a company's purchasing procedures.

Unit(s):
BSBADM311 - Maintain business resources
BSBPUR301 - Purchase goods and services

Leadership - An Introduction

This subject gives students a grounding in leadership by giving an overview of the fundamentals, such as leadership styles, building trust, problem solving and delegating. Topics include: the effectiveness of positive self-talk; steps to identify and resolve conflict; using questioning to problem solve; and being able to identify and focus on the team's focus, goals and KPIs.

Unit(s):
BSBFLM312 - Contribute to team effectiveness
BSBFLM303 - Contribute to effective workplace relationships

Manage Online Transactions

Online transactions are an integral part of business today. This subject gives an overview of the elements of those transactions including: e-commerce, navigating the internet securely, online shopping, electronic banking and online purchasing. The subject also prompts for the terms and conditions of the online purchase to be checked.

Unit(s):
BSBITU315 - Purchase goods and services online

Spreadsheets - An Introduction

In this introductory subject, learn the fundamentals of working with excel, working with tables and formulas. Content also covers ways to design spreadsheets to improve the layout of information, as well as how to create graphs or charts. You will be amazed at the potential excel offers you to improve work processes and manage data.

Unit(s):
BSBITU314 - Design and produce spreadsheets

Workplace Mail and Documents

This subject covers the handling and receipt of incoming and outgoing mail in accordance with Australia Post Guidelines. Topics also address other delivery systems such as couriers and DX mail. A key focus is to learn how to find the most cost effective delivery option that meets your required time frame for delivery.

Unit(s):
BSBINM303 - Handle receipt and despatch of information

Recordkeeping Functions

Record Keeping Functions is an introduction to records and the record keeping process. This subject will cover the legislative requirements of the specialist field of records management as well as records creation, and capturing and classifying records. The content also covers the processes to register and tracking records as well as audits and key record keeping policies.
Unit(s):
BSBRKG301 - Control records
BSBRKG305 - Review recordkeeping functions

**Essential Selling Skills**

Essential sales skills include identifying the customers needs and the features of the product or service that will most benefit them. This requires good interpersonal and communication skills as well as the ability to be accurate when processing the sale. This subject covers these essential sales skills.

Unit(s):
BSBCUE304 - Provide sales solutions to customers
FNSSAM301 - Identify opportunities for cross-selling products and services

**Desktop Publishing Introduction**

This specialist desktop publishing subject shows you how to use the program Publisher to learn essential skills to create business cards, flyers, and newsletters. You will learn about using margin guides, text boxes, and inserting information. This subject requires students to download a trial version of Publisher, or to have it already.

Unit(s):
BSBITU309 - Produce desktop published documents

**Recommend Products and Services**

This subject focuses on the skills and knowledge required to develop knowledge of products and services in preparation for working with customers in service role or inbound or outbound sales. This subject requires you to undertake product research and answer case studies to demonstrate these skills.

Unit(s):
BSBPRO301 - Recommend products and services
BSBCUE309 - Develop product and service knowledge for customer engagement operation

**Records and Workplace Information**

Many workplace roles have responsibilities to gather, organise and apply workplace information to different work tasks. These requires an understanding of business record systems and key office technology. This subject looks at the range of filing and records systems as well as the types of uses for office computers and software. In addition it looks at ways business data can be presented for easier analysis and use.

Unit(s):
BSBINM301 - Organise workplace information
Service Guarantees

Quality Training Provider
ACCM has a history of satisfied students and clients and repeat business. Our testimonials on our website are genuine and the type of feedback we receive daily. We are so confident that you will be pleased with the College service, that we guarantee it.

Speedy Paper-less Enrolment
Enrolment Applications are accepted 24/7 online. Be fully enrolled in your course in 7 minutes! For customised or employment based courses and traineeships contact us and we will send you a customised enrolment page by email.

Start Anytime - Immediate Enrolment
Within 30 minutes of applying to enrol, your personal log-on details are emailed to you. This gives you access to our on-line system Webclass. Login to Webclass and complete the administrative items. Once you have completed these items a College Student Adviser will phone you to discuss your needs, course requirements, suitability and electives. You will then have access to the first study module via WebClass.

Industry Expert Student Adviser
You will be allocated your own industry experienced Student Adviser. While they will personally manage your program; you will also benefit from the College team around them to provide expert assistance in all subject areas.

Prompt Results and Feedback
All assessments are promptly returned (via Webclass) with detailed feedback and encouragement. Our goal is to have them back to you in a week or less. In the meantime you can progress to your next subject.

Personal Contact for the Right Start
Your College Student Adviser will phone you to welcome you to the course and ensure that you understand the best way to make progress in your course. They will also assist you with any questions you may have.
They will be in regular contact with you, especially at the start of your course, to offer motivation, support and guidance.
For employment based enrolments they will also make contact with your work supervisors to address any questions they may have.

Pro-active Learner Support
The support won’t stop! Contact from your College Student Adviser will continue every month, based on the level of help you need.
Of course, at any time you can call us to get help. Get immediate assistance over the phone and by email. If immediate assistance is unavailable for any reason, we will make sure a qualified Student Adviser is in contact with you no later than the next business day.

Quality Course Materials
Our step by step course materials have been written by industry experts specifically for the College. They will give you all of the relevant learner information you need to succeed in your course.
The resources simplify industry jargon and concepts, give you industry insight and understanding, and focus on current real world business practices.

Employer Progress Updates
For employment based enrolments all supervisors will have access to an online progress report showing the current status of all learners. We understand that it's essential to keep you up to date so we will prompt you each month to access your report.
