Certificate III in Customer Engagement

BSB30215

DELIVER REWARDING CUSTOMER SERVICE THROUGH QUALITY CUSTOMER ENGAGEMENT
Certificate III in Customer Engagement addresses the skills needed in customer contact roles in the growing contact and service centre industry. These include skills to deliver a rewarding customer service experience, and the ability to manage priorities and workplace challenges. You will gain a solid understanding of service centre and call centre systems and culture, and have a range of electives to choose from.

The Certificate III in Customer Engagement will not only provide you with an enjoyable and informative learning experience but also a high level of professionalism and the ability to deliver a high quality service. Learn all about how to work effectively in this fast paced industry and the range of electives will allow you to obtain general business skills or those more specific to a contact or service centre.

Entry Requirements

Reading and Writing Skills
The course is an online correspondence course so you need to have basic English reading and writing skills, or higher. As a guide - you should have completed Year 10 schooling, or have proven workplace written communication skills.

Spoken English Skills
Some components of this course have practical components where students will be required to demonstrate verbal communication skills as part of their assessments. Average English skills are necessary to complete these components successfully.

Computer and Internet
- Access to a Desktop Computer or Laptop
- Internet access with Internet Explorer 8+, Chrome or Firefox
- Microsoft Office 2010 Word and Subject specific Office products for chosen electives (ie Excel, Powerpoint, Publisher)

Help Desk Subjects - Relevant Work Role
If you are selecting the IT Help Desk elective subjects you must have a current role in this field.

Other
- Ability to study and conduct assessments in a safe environment
Subject Descriptions

Core Subjects:

**Work Roles and Priorities**
Being able to organise personal work priorities is an essential job skill. Learn how to set and meet work priorities through time management and planning your work schedule. Skills to identify potential problems and prevent stress in the workplace are also covered. Also learn the importance of professional development activities.

Unit(s):
- BSBWOR201 - Manage personal stress in the workplace
- BSBWOR203 - Work effectively with others
- BSBWOR301 - Organise personal work priorities and development
- BSBWRK311 - Develop self-awareness

**Work Effectively in Customer Engagement**
This subject covers the different types of customer contact and service centres, and the typical roles you would find in these centres. It explains the metrics and KPIs used to measure the effectiveness of customer contact, and examines the importance of team work. The subject also provides information on the customer engagement systems and phone technology that is used in contact and service centres.

Unit(s):
- BSBCUE301 - Use multiple information systems
- BSBCUE307 - Work effectively in customer engagement

**Critical Service Skills**
Customer service is a key function in all job roles. This subject provides information and knowledge on identifying the customers needs and delivering good customer service. As well as covering practical service skills there is specific emphasis on customers with special needs, working in a culturally diverse workplace and effective complaint handling skills. In this subject you will also learn about typical procedures that businesses want applied to any complaints received, and how to best adapt your communication to the specific needs of the customer. An alternative assessment is available that specifically addresses internal customer service roles.

Unit(s):
- BSBCUS301 - Deliver and monitor a service to customers
- BSBCMM301 - Process customer complaints
- BSBDIV301 - Work effectively with diversity
- BSBCUE203 - Conduct customer engagement
Understand Your Product Range

This subject focuses on the skills and knowledge required to develop knowledge of products and services in preparation for customer engagement in an inbound, outbound or face to face customer engagement role. This subject requires you to undertake product research and answer case studies to demonstrate these skills.

Unit(s):
BSBCUE309 - Develop product and service knowledge for customer engagement operation

Elective Subjects: 2 - 3 Electives are required (depending on subjects chosen)

Workplace Safety

This subject covers the skills and knowledge required to work in a healthy and safe manner. You will learn to recognise hazards, the importance of safety signs and how to raise safety issues within a workplace. This is a great entry level subject to help you act and respond in a safe manner and it also covers how to respond to emergency incidents.

Unit(s):
BSBWH5201 - Contribute to health and safety of self and others

Essential Selling Skills

Essential sales skills include identifying the customers needs and the features of the product or service that will most benefit them. This requires good interpersonal and communication skills as well as the ability to be accurate when processing the sale. This subject covers these essential sales skills.

Unit(s):
BSBCUE304 - Provide sales solutions to customers
FNSSAM301 - Identify opportunities for cross-selling products and services

Business Writing Basics

Learn to develop a good writing style for creating standard business documents such as basic letters, invoices, memos, messages and emails. You will also get tips on reviewing, proofreading and editing documents, as well as how to safely save and store them. Practical activities ensure that you have the necessary skills to organise information, communicate with work colleagues and write clearly.

Unit(s):
BSBADM302 - Produce texts from notes
BSBWRT301 - Write simple documents

Build Client Relationships

This subject has been structured to progressively develop the students skill and knowledge in the building, managing and maintaining of customer relationships to support business outcomes. It explains the difference between customer service and customer relationship building; with an emphasis on the skills required for longer term relationship building. This includes considering a range of client relationship strategies and also how to use networking effectively.

Unit(s):
BSBREL402 - Build client relationships and business networks
BSBCUS402 - Address customer needs
Leadership - An Introduction
This subject gives students a grounding in leadership by giving an overview of the fundamentals, such as leadership styles, building trust, problem solving and delegating. Topics include: the effectiveness of positive self-talk; steps to identify and resolve conflict; using questioning to problem solve; and being able to identify and focus on the teams focus, goals and KPIs.

Unit(s):
BSBFLM303 - Contribute to effective workplace relationships
BSBFLM312 - Contribute to team effectiveness

Outbound Customer Contact
The Outbound Customer Contact subject examines the skills to make outbound phone calls to potential or existing customers. It will provide you with successful customer contact techniques including personal qualities for outbound contact. The importance of active listening, preparing for the call and identifying customer needs through questioning is key. It also details the legislation surrounding outbound customer contact.

Unit(s):
BSBCUE303 - Conduct a telemarketing campaign
BSBCUE308 - Conduct outbound customer engagement

Meetings and Business Travel
This subject provides the skills and knowledge required to organise effective meetings including the preparation and distribution of meeting related documents such as agendas and minutes. It also covers skills and knowledge required to organise business travel, including preparing travel related documentation and making travel bookings.

Unit(s):
BSBADM405 - Organise meetings
BSBADM406 - Organise business travel

Delivering Help Desk Customer Satisfaction
Customer service soft skills such as active listening, questioning skills and rapport building are key to ensuring that you can correctly identify the issues faced by Help Desk customers and be equipped to understand and investigate their matter. This subject also involves analysis of Help Desk requests logged so that proactive steps can be taken. (This subject is an alternative for IT Help Desk staff to the core Customer Engagement and Service subject and includes the units of that subject).

Unit(s):
ICTICT209 - Interact with ICT clients

Help Desk ICT Product Knowledge
This subject describes the skills and knowledge required to identify, research and apply industry specific ICT technologies to ensure that the quality of the entire business process is maintained at the highest level possible, and customers issues can be appropriately addressed. (This subject is an ICT Help Desk specific subject that replaces the general Product Knowledge subject and includes that unit).

Unit(s):
ICTICT305 - Identify and use current industry specific technologies
Help Desk Operations
Learn the skills and knowledge required to remotely support the resolution of ICT technical enquiries. The skills addressed include the techniques to record, prioritise and escalate client support requests received by your IT Help Desk, and the effective use of multiple information systems to troubleshoot and record your actions. You need to be employed in a relevant role to undertake this subject.

Unit(s):
ICTSAS204 - Record client support requirements
ICTWOR306 - Resolve technical enquiries using multiple information systems

Mastering Your Help Desk Role
Learn how to investigate the technical support needed and provide advice to the customer on their software, hardware or network problem. This Help Desk subject also looks at the ways you can develop your first-level remote help desk support skills to offer the highest level of support possible. You need to be employed in a relevant role to undertake this subject.

Unit(s):
ICTSAS420 - Provide first-level remote help desk support

Participate in Networking Events
This is a practical subject that examines the skills and techniques needed to make business networking effective. It covers communication approaches when meeting new contacts; negotiating and problem solving; and how to maintain positive client relationships. You must attend a face to face networking event and actively participate in a social media network as part of the assessment requirements.

Unit(s):
BSBREL401 - Establish networks

Keyboarding and Business Technology
Keyboarding and Business Technology focuses on developing touch typing skills, and also using keyboard functions and short cuts. Important proofreading tips as well as safe computer work practices are addressed. Students are allowed to practice online with this subject so that they can achieve 30 words per minute at an accuracy of 98%.

Unit(s):
BSBITU307 - Develop keyboarding speed and accuracy

Word Processing - An Introduction
In this introduction to word processing you will learn and develop key word processing skills that will allow you to create, style and prepare business documents. You will develop the experience to move and add text and using formatting techniques through practical activities. You will use Microsoft Word to prepare required documents using specific word processing features.

Unit(s):
BSBITU313 - Design and produce digital text documents
BSBITU306 - Design and produce business documents
Spreadsheets - An Introduction

In this introductory subject, learn the fundamentals of working with excel, working with tables and formulas. Content also covers ways to design spreadsheets to improve the layout of information, as well as how to create graphs or charts. You will be amazed at the potential excel offers you to improve work processes and manage data.

Unit(s):
BSBITU314 - Design and produce spreadsheets

Digital Communication & Appointments

This subject looks at the business use of email and other online technologies to communicate. It looks at the different features and functions of digital appointment scheduling applications, such as creating emails and creating meeting requests; as well as the process to determine when work colleagues are available for appointments.

Unit(s):
BSBADM307 - Organise schedules
BSBITU213 - Use digital technologies to communicate remotely
Service Guarantees

Quality Training Provider
ACCM has a history of satisfied students and clients and repeat business. Our testimonials on our website are genuine and the type of feedback we receive daily. We are so confident that you will be pleased with the College service, that we guarantee it.

Speedy Paper-less Enrolment
Enrolment Applications are accepted 24/7 online. Be fully enrolled in your course in 7 minutes! For customised or employment based courses and traineeships contact us and we will send you a customised enrolment page by email.

Start Anytime - Immediate Enrolment
Within 30 minutes of applying to enrol, your personal log-on details are emailed to you. This gives you access to our on-line system Webclass. Login to Webclass and complete the administrative items. Once you have completed these items a College Student Adviser will phone you to discuss your needs, course requirements, suitability and electives. You will then have access to the first study module via WebClass.

Industry Expert Student Adviser
You will be allocated your own industry experienced Student Adviser. While they will personally manage your program; you will also benefit from the College team around them to provide expert assistance in all subject areas.

Prompt Results and Feedback
All assessments are promptly returned (via Webclass) with detailed feedback and encouragement. Our goal is to have them back to you in a week or less. In the meantime you can progress to your next subject.

Personal Contact for the Right Start
Your College Student Adviser will phone you to welcome you to the course and ensure that you understand the best way to make progress in your course. They will also assist you with any questions you may have. They will be in regular contact with you, especially at the start of your course, to offer motivation, support and guidance. For employment based enrolments they will also make contact with your work supervisors to address any questions they may have.

Pro-active Learner Support
The support won’t stop! Contact from your College Student Adviser will continue every month, based on the level of help you need. Of course, at any time you can call us to get help. Get immediate assistance over the phone and by email. If immediate assistance is unavailable for any reason, we will make sure a qualified Student Adviser is in contact with you no later than the next business day.

Quality Course Materials
Our step by step course materials have been written by industry experts specifically for the College. They will give you all of the relevant learner information you need to succeed in your course. The resources simplify industry jargon and concepts, give you industry insight and understanding, and focus on current real world business practices.

Employer Progress Updates
For employment based enrolments all supervisors will have access to an online progress report showing the current status of all learners. We understand that it’s essential to keep you up to date so we will prompt you each month to access your report.
